Jeffrey Meffert, M.D., FAAD

Dr. Jeffrey Meffert is almost a native of San Antonio. Born into a military family, he graduated from Marshall High School in San Antonio prior to attending Rice University in Houston. Upon completing his medical school training and Family Practice residency at the University of Texas Health Science Center in San Antonio, Dr. Meffert practiced family medicine in Virginia and flight medicine in Alaska with the United States Air Force.

He returned to San Antonio and completed his Dermatology training at Wilford Hall Medical Center in 1995. Dr. Meffert was in the Air Force for over 21 years, completing his Air Force career as Program Director of the combined Army/Air Force Residency in dermatology at Wilford Hall and Brooke Army Medical Center. He has been practicing dermatology for the past ten years.

Dr. Meffert is Board Certified in Dermatology and has written over 40 journal articles and book chapters on a variety of topics. He is also a frequent speaker to primary care physicians on general dermatology issues and is actively involved in the American Academy of Dermatology as a member of both the Education and Bioterrorism task forces.

The Dermatology Center at Texas MedClinic offers the evaluation and treatment of the following:
