

## *A brief word about who we are....*

Texas MedClinic was established in 1982 by Dr. Bernard Swift. Dr. Swift recognized the need to provide convenient, affordable Occupational healthcare on a walk-in basis to the community of San Antonio. Through meticulous planning, attention to detail, and thorough quality control procedures, Texas MedClinic has grown to twelve locations throughout South Central Texas.

Full time physicians at Texas MedClinic have extensive backgrounds in caring for a wide variety of injuries and illnesses that typically occur while on the job. They are experienced physicians who, along with a well-trained professional staff, are dedicated to practicing occupational medicine in the ambulatory care setting with the highest standards of professionalism and skill.

We, at Texas MedClinic, strive not only to provide the highest quality of medical care to our patients, but also the best medical service available anywhere. These goals can only assist an employer in providing the best for his/her employees and at the same time allow us to reduce the amount of loss time, thereby lowering the overall cost of the employers' Workers' Compensation bills.

At Texas MedClinic, our vision is to be the premier Occupational and Urgent Care medical provider in our community by exceeding the expectations of our patients, clients and staff, and we look forward to sharing this vision with your company.

Sincerely,  
The Marketing Department  
210.349.5577 San Antonio  
512.486.6110 Austin

## Benefits and Services

- Our clinic hours are from 8 AM-11 PM, 7 days a week, 365 days a year, including all holidays.
- Convenient locations that are accessible from major highways (Loop 410, IH-10 and IH-35).
- Staff physicians are trained, skilled, and experienced in caring for a wide variety of Occupational Medical problems.
- Pleasant atmosphere with courteous, considerate staff members that are available to assist employees in order to minimize any discomfort or anxiety they may have at the time of treatment.
- We have a licensed physician on duty during all hours of operation at each clinic.
- Each of our clinics is staffed with a Medical Review Officer.
- All Texas MedClinic drug test collectors are DOT certified.
- Injuries, especially severe ones, are given priority over less serious injuries and illnesses.
- A written report including the employees' time spent at the clinic, along with the status of the injury, is always given to the insurance carrier, the employer, and a copy is kept at the clinic.
- "Modified-Duty" is supported by the physicians at Texas MedClinic unless otherwise specified by the company. Employees who maintain activities within the limitations of their injuries usually improve much more quickly than those who remain inactive.
- Follow-ups for work-related injuries are given appointment times when adequate physician coverage is available.
- Occupational Billing is handled by a thoroughly trained staff who is knowledgeable in all aspects of Worker's Compensation insurance and billing. Contact our billing department at 210.349.5577 from Monday-Friday from 8:00 AM - 5:00 PM.
- All prescriptions are sent electronically to your pharmacy of choice.
- Each clinic is equipped with EKG, a lab and computerized x-ray technology.
- Establishing an account with Texas MedClinic allows us to create your company's protocol. All clinics can access this protocol, which allows us to provide consistency in delivering work status reports, drug test results, and physical results.
- Setting up an account is FREE of charge and does not require a contract. Once an account is established your company will be able to use any of our convenient locations in San Antonio, New Braunfels, and Austin. If you would like to set up an account contact the Marketing Department at 210-349-5577 for San Antonio/New Braunfels or 512-486-6110 for Austin.

- SBC Employees
- USAA Employees

#### **MEDICARE BENEFICIARIES:**

Texas MedClinic does not accept assignment for Medicare claims. This means Medicare patients will be asked to pay at the time of service, and Texas MedClinic will file a claim to Medicare so Medicare can reimburse the patient. The exceptions to this are for Laboratory Tests and Injected Drugs/Medications prescribed at the time of a visit. Patients will not be asked to pay at time of service, and Medicare will reimburse Texas MedClinic directly, as mandated by Medicare. For Injected Drugs/Medications, patients will be balance billed for any amount that Medicare does not pay or is applied to the deductible.

-If you do not find your plan on this list, or would like your insurance benefits verified prior to treatment, you can call our Billing Office at 210.349.5592 and ask for a Private Insurance Account Representative. Due to the limitation of Insurance Carriers' phone lines, we may not be able to provide this service after 5pm or on week-ends.
