Let us care for your employees

Texas MedClinic was established in 1982 by Dr. Bernard Swift. Dr. Swift recognized the need to provide convenient, affordable Occupational healthcare on a walk-in basis to the community of San Antonio. Through meticulous planning, attention to detail, and quality control procedures, Texas MedClinic has grown to 17 locations throughout South Central Texas.

Full time medical professionals at Texas MedClinic have extensive backgrounds in caring for a wide variety of injuries and illnesses that typically occur while on the job. Our experienced medical team along with a well-trained staff, are dedicated to practicing occupational medicine in the ambulatory care setting with the highest standards of professionalism and skill.

Texas MedClinic medical professionals and staff strive not only to provide the highest quality of medical care to our patients, but also the best medical service to our clients. Our goal is to assist you in providing the best for your employees while also reducing the amount of lost time, lowering the overall cost of your Workers’ Compensation bills.

Texas MedClinic's vision is to be the premier Occupational and Urgent Care medical provider in our community by exceeding the expectations of our patients, clients and staff. We look forward to sharing this vision with your company.

Sincerely,
The Business Development & Marketing Department

210.349.5577 San Antonio
512.486.6110 Austin
Benefits

Availability + Convenience

- OPEN from 8am-11pm, Every Day
- Select locations Open 24 Hours
- Care of an injured employee by the same provider to attain continuity
- No appointment necessary for the initial visit for an injured employee
- EKG, a lab and computerized x-ray technology onsite
- CT Scans at select locations

After-Hours (11pm - 8am), we take care of:
- Urgent medical problems • Work Related Injuries • Drug & alcohol testing

We do not take care of pre-placement drug testing or physicals after-hours.

Work Related Injury Treatment

Modified-Duty is strongly supported by the medical professionals at Texas MedClinic unless otherwise specified by the company. We focus on returning employees to work quickly, and without excess use of physical therapy, to save you time and money.

Our medical team has a strong track record of getting employees back to work quickly. We see between 45,000-50,000 work related visits each year. Of those visits:

- 85% of patients are returned back to work without time off
- 93% of injured workers are either released to full duty or modified duty by the 2nd day after their visit
- 98% of patients either return to full duty or are placed on modified duty by the end of the first week.
- Of those patients with restrictions:
  - 1% of workers remain off work by the end of week 2
  - 90% return to full duty within 4 weeks

Drug and Alcohol Testing

- Each clinic is staffed with a Medical Review Officer
- All Texas MedClinic’s drug test collectors are DOT certified.

Setting up an account is free of charge and does not require a contract. Once an account is established, your company will be able to use any of our convenient locations in San Antonio, New Braunfels, Austin or Round Rock.

Some of the substances tested for in a drug test are found in prescription medications. For those substances we have given a few examples of the prescription medication that might cause a positive drug test. All positive drug tests are reviewed by a Medical Review Officer. Please note the examples provided are just a few of the most common prescriptions for that substance. If you have additional questions, please contact the Business Development & Marketing Department:

- Specialty Risk Services-Texas Workers’ Comp. Health Care Network
- Texas Star Network
- The Hartford Workers’ Comp Health Care Network
- Zenith Health Care Network
- Zurich Services Corporation Healthcare Network

MEDICARE BENEFICIARIES:
Texas MedClinic does not accept assignment for Medicare claims. This means Medicare patients will be asked to pay at the time of service, and Texas MedClinic will file a claim to Medicare so Medicare can reimburse the patient. The exceptions to this are for Laboratory Tests and Injected Drugs/Medications prescribed at the time of a visit. Patients will not be asked to pay at time of service, and Medicare will reimburse Texas MedClinic directly, as mandated by Medicare. For Injected Drugs/Medications, patients will be balance billed for any amount that Medicare does not pay or is applied to the deductible.

If you do not find your plan on this list, or would like your insurance benefits verified prior to treatment, you can call our Billing Office at 210.349.5592 and ask for a Private Insurance Account Representative. Due to the limitation of Insurance Carriers’ phone availability, we may not be able to provide this service after 5pm or on weekends.
Price List

Below is a price list for some of our more commonly used occupational services. If you do not see pricing listed for a particular service, please contact the Business Development/Marketing Department in San Antonio at 210.349.5577 or in Austin at 512.486.6110 for additional information.
