Opioids	X	X	X
Phencyclidine	X	X	X
Barbiturates			X
Benzodiazepines			X
Methadone			X
Methaqualone			X
Propoxyphene			X

All U.S. Department of Transportation (DOT) drug tests follow federal collection and testing guidelines. All DOT & Non-DOT drug testing follow DOT confirmation testing guidelines.

**DOT Confirmation Testing:**

- **Opioids Confirmatory Testing:** Codeine, Morphine, and 6-AM (heroin), Hydrocodone, Hydromorphone, Oxycodone, and Oxymorphone.
- **Amphetamines Confirmatory Testing:** Amphetamine, Methamphetamine, MDMA, and MDA.

Some of the substances tested for in a drug test are found in prescription medications. All positive drug tests are reviewed by an MRO (Medical Review Officer). If results are reported for medication, reviewing MRO will request to see prescription.

\*Non-DOT rapid drug testing is available. Rapid negative results are reported same day if specimen collection is done before 2 pm, Mon-Fri 8-5 pm. Evening and weekend results will be reported the next operating business day. Reporting may be delayed on weekends & holidays. If the Rapid drug testing specimen results are inconclusive (Non-Negative), the specimen will be sent to lab for further testing. All rapid drug tests that are sent for further testing follow DOT confirmation testing guidelines. **Rapid Drug Testing is not approved for DOT drug testing.**
