

As businesses in our community begin to open, and we return to person-to-person interactions, it becomes important to quickly establish whether or not individuals are contagious.

Texas MedClinic will be offering to San Antonio and surrounding areas the first and only RAPID (performed in-house) antigen test for the virus that has FDA authorization. Using a traditional nasal swab, the test results are ready within 15 minutes.

Individuals and households can have immediate clarity and take swift action to prevent the spread of the virus.

Testing is available after a consultation with a TMC provider for those with or without symptoms of COVID-19.

CURRENT SYMPTOMS FOR COVID-19

These may vary from person to person, only a doctor can give you a diagnosis.

FEVER

SHORTNESS OF BREATH

CHILLS

SORE THROAT

NEW LOSS OF TASTE OR SMELL

COUGH

MUSCLE ACHES

VOMITING OR DIARRHEA

we treat you well.

COVID-19 TESTING IS AVAILABLE AT ALL TEXAS MEDCLINIC LOCATIONS

Those seeking a COVID-19 test must undergo a medical exam; the test and exam have a fee that most insurance plans cover.

Check-In ONLINE at one of our convenient locations at [texasmedclinic.com](https://www.texasmedclinic.com).
