

LET US CARE FOR YOUR EMPLOYEES

Texas MedClinic was established in 1982 by Dr. Bernard Swift. Dr. Swift recognized the need to provide convenient, affordable Occupational healthcare on a walk-in basis to the community of San Antonio. Through meticulous planning, attention to detail, and quality control procedures, Texas MedClinic has grown. Texas MedClinic has several locations throughout the San Antonio metro area and South Central Texas, including locations in New Braunfels, Austin, Round Rock, and Spring Branch.

Full time medical professionals at Texas MedClinic have extensive backgrounds in caring for a wide variety of injuries and illnesses that typically occur while on the job. Our experienced medical team along with a well-trained staff, are dedicated to practicing occupational medicine in the ambulatory care setting with the highest standards of professionalism and skill.

Texas MedClinic medical professionals and staff strive not only to provide the highest quality of medical **care** to our patients, but also the best medical **service** to our clients. Our goal is to assist you in providing the best for your employees while also reducing the amount of lost time, lowering the overall cost of your Workers' Compensation bills.

Texas MedClinic's vision is to be the premier Occupational and Urgent Care medical provider in our community by exceeding the expectations of our patients, clients and staff. We look forward to sharing this vision with your company.

Sincerely,

Texas MedClinic Client Service Center

Work Related Injuries

Modified-Duty is strongly supported by the medical professionals at Texas MedClinic unless otherwise specified by the company. We focus on returning employees to work quickly, and without excess use of physical therapy, to save you time and money.

Our medical team has a strong track record of getting employees back to work quickly.

We see between 45,000-50,000 work related visits each year. Of those visits:

- 85% of patients are returned back to work without time off
- 93% of injured workers are either released to full duty or modified duty by the 2nd day after their visit.
- 98% of patients either return to full duty or are placed on modified duty by the end of the first week.
- Of those patients with restrictions:
 - 1% of workers remain off work by the end of week 2
 - 90% return to full duty within 4 weeks

Work Related Injury Services Available

The Employer Portal system is now available for easy access to results & reports. You will be enrolled to our portal system when your account is set up.

Client Service Center:

Our Client Service Center can assist employers with obtaining results for occupational services, copies of work status reports, and with answering questions regarding specific employee visits to our facilities. You can contact our [Client Service Center](#) at 210-403-4295 or by email at cscenter@texasmedclinic.com.

Drug Test Panels

Drugs Tested	DOT (Department of Transportation) Federal Drug Testing	Non-DOT 5 Panel <i>*Rapid Option Available</i>	Non-DOT 10 Panel <i>*Rapid Option Available</i>
Marijuana (THC)	X	X	X
Cocaine	X	X	X
Amphetamines	X	X	X
Opioids	X	X	X
Phencyclidine	X	X	X
Barbiturates			X
Benzodiazepines			X
Methadone			X
Methaqualone			X
Propoxyphene			X

All U.S. Department of Transportation (DOT) drug tests follow federal collection and testing guidelines. All DOT & Non-DOT drug testing follow DOT confirmation testing guidelines.

DOT Confirmation Testing:

- **Opioids Confirmatory Testing:** Codeine, Morphine, and 6-AM (heroin), Hydrocodone, Hydromorphone, Oxycodone, and Oxymorphone.
- **Amphetamines Confirmatory Testing:** Amphetamine, Methamphetamine, MDMA, and MDA.

Some of the substances tested for in a drug test are found in prescription medications. All positive drug tests are reviewed by an MRO (Medical Review Officer). If results are reported for medication, reviewing MRO will request to see prescription.

*Non-DOT rapid drug testing is available. Rapid negative results are reported same day if specimen collection is done before 2 pm, Mon-Fri 8-5 pm. Evening and weekend results will be reported the next operating business day. Reporting may be delayed on weekends & holidays. If the Rapid drug testing specimen results are inconclusive (Non-Negative), the specimen will be sent to lab for further testing. Rapid Drug Tests cannot detect synthetic narcotics. However, if test is non-negative, synthetic narcotics may be picked up during confirmatory testing at the lab. All rapid drug tests that are sent for further testing follow DOT confirmation testing guidelines. **Rapid Drug Testing is not approved for DOT drug testing.**
